The following is an Examiner's Statement of Reasons for Allowance:

The instant claimed invention is directed to a system and method for disabling interrupts. The examiner has done a thorough and extensive search and found no single prior art or in combination that teaches or fairly suggests the coupling of "an interrupt cause register, an interrupt disabling register and an interrupt mask register" as claimed in independent apparatus claims 1, 7 and "transferring a value stored in an interrupt disabling register corresponding to a source of the interrupt to an interrupt mask register so as to disable receiving further interrupts from the source of the interrupt" as claimed in independent method claims 15 and 19. Dependent claims 2-6, 8-14, 16-18 and 20-21 further limit the subject matter of the respective parent claims.

If applicant is aware of any better prior art than those are cited, he is required to bring the prior art to the attention of the examiner. Furthermore, any comments considered necessary by applicant must be submitted no later than the payment of the Issue Fee and, to avoid processing delays, should preferably **accompany** the Issue Fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance".

Examiner's Amendment

An Examiner's Amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 C.F.R. § 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the Issue Fee. The examiner's amendment was necessary to fill up typographical omissions.

In the claims:

1. The word --and-- should be inserted after ";" in claim 15, line 2 and claim 19, line 3.
2. In claim 17, line 2, --- should be inserted after the word "interrupt".
